

AIR NARC™ 300

The Lightest, Most Compact Welder | Generator | Air Compressor | Battery Booster ALL-IN-ONE Power System™ on the Market

- 40 cfm rotary screw compressor for air on demand and extended life of unit
- Small dimensions allow unit to fit as a side-pack or be mounted behind the cab
- EFI engine improves fuel economy by up to 27%
- TRUE 2 generator system for safe multi-function of welder and electric tools
- All the benefits of a high frequency welder offering excellent weld characteristics
- Totally self contained, but can be integrated with the chassis for maximum versatility
- Designed for fuel efficiency featuring: all auto throttle control, fuel injected engine, and "Smart Start™" on certain models
- One unit to start all your equipment with battery charge and boost capability offering: 12V charge, 12V and 24V boost
- Control panel can be remotely mounted for the ultimate in user convenience

SPECIFICATIONS

Engine: 29 hp. Kohler® electronic fuel injected, air cooled, and electric start

Welder Capabilities: 300 Amps - 100% duty cycle, DC/CC, CV, TIG, CAC

Gen. Wattage: 7,000 watts of peak smooth wave power (50 amps of 110V and 25 amps of 220V with built in breakers)

Battery Charger: 300 amps 12V charge and 12V and 24V boost

Rotary Screw Air Compressor: 40 cfm and up to 175 psi

Control Panel: Can be remotely mounted for operator convenience

Drive System: Heavy duty belt drive system for anti-vibration and long service intervals

Fuel Capacity: 12 gallons fuel storage

Warranty: 2 year complete machine warranty

Weight: Less than 700 lbs.

Dimensions: 21"W x 47"L x 31"H

Product improvement is a continuing goal. Design and specifications are subject to change without notice or obligations.
